Trinity River Vision Signature Bridges

Henderson Street | White Settlement Road | North Main Street

Project Overview

- \$91 million for three innovative V-pier bridges, two modern roundabouts and other improvements.
- Partnership involving Trinity River Vision Authority, Tarrant Regional Water District, City of Fort Worth, North Central Texas Council of Governments, Tarrant County and TxDOT.
- The three bridges will serve as gateways to Panther Island and create the foundation for a unique, urban waterfront community between downtown and the Stockyards.

About Henderson Street Bridge

- 806 feet long, 77.75 feet wide
- Number of piers: 8
- Pavement: 17,000 square yards
- Retaining wall: 25,300 square feet
- Fill: 33,300 cubic yards
- Drilled shafts: 10-foot diameter, 60-80 feet deep
- Design architect: Miguel Rosales
- Design engineer: Freese & Nichols Inc.

Innovative Design

- Cast-in-place, post-tensioned V-piers with unique geometry to reduce the number of piers in the future bypass channel
- LED accent lighting
- 10-foot-wide lighted pedestrian walkways
